VISITOR BLEACHERS BID  
OCTOBER 22, 2008  
COMPLETED SUMMER 2009  
CONSTRUCTION COST: \$224,400

Improvements took place in two phases. In 2006, the grass field was removed and new drainage installed to accept ProGrass turf.

The track was also resurfaced, and a new entrance to the stadium created. All of the parking area was paved.

In 2009, new prefabricated, low rise/run profile, closed deck visitor bleachers were installed, meeting ADA requirements. The structure was installed on concrete slab on-grade, which was overexcavated to remove unsuitable soils.

Seating capacity is 852.
