MR. APPI ALLA, DIRECTOR
CAMPUS DESIGN AND
CONSTRUCTION 814.732.2566

BID SEPT. 17, 2010
COMPLETED AUGUST 2011
CONSTRUCTION COST \$2 M

RENOVATION OF 5,100 S.F.
WITHIN COMPTON HALL

The former gym was converted into a state-of-the-art, 50'x70' lecture hall, with tiered seating for 130 students. From the central podium three projection screens are manipulated. This space achieves high sound dampening levels, enriching audio recording quality.

The studio production suite overlooks the hall through a sealed window, replacing an existing, outdated video production room. Audio/visual tapings can integrate with activities taking place in the hall, or function as a stand-alone facility for teaching and media production. The sound control room is equipped with the latest video production technology.

Support offices and classrooms were also renovated, and an attached building was demolished for a new, sheltered bus stop.
