Aside from completing several large, reimbursable projects at its elementary schools and junior-senior high school building, we have also completed several smaller capital improvement projects.

These projects include:

- District-wide and individual facility studies for all schools
- New fire alarm system at Perry Elementary
- Data wiring installations for all schools
- Demolition of the Ewing Park Elementary building
- Partial re-roofing of the high school
- Business Office renovations
- Stage Lighting Dimming System replacement (completed 2008 for \$270,000)
- Masonry repairs at Hartman Elementary School
- Chiller system improvements at Hartman Elementary School
