Students help cut the ribbon during the open house at Scott Primary School in Shaler on Saturday, Oct. 20, 2018.

Parents and students in the Shaler Area School District got a chance to tour the new Scott Primary School along Scott Avenue on Saturday.

The new school was built to replace the former Rogers Primary School, which was shut down after a fire in April 2015.

Students who would have attended Rogers after the fire have been going to Burchfield Primary School.

Once work is completed on Scott Primary, the Rogers kids and students from Jeffery Primary will attend the new school.
