BID: JAN. 13, 2011
COMPLETED: DECEMBER 2011
5,400 SQUARE FEET OF SPACE
ON .996 OF AN ACRE

The Center links all 18 SRHS facilities, clinics and physician offices and provides access to patient records at each. SRHS houses all data processing here to improve electronic medical records access.

Elements

- Offices/cubicles for 12-18 staff, two conference rooms, and computer server room.
- Tier II power redundancy provides uninterrupted service.
- Server room with raised floor system conveying wiring and ductwork, with data cabling suspended above the ceiling.
- Security includes an access/lock-down system, and data-grade communications grounding system protecting against loss.
- Sustainable features include window shades, brick and glass, and minimal site disturbance.
