The L-shaped classroom wings of the original 1954 building were renovated to:

- upgrade finishes;
- enlarge classrooms;
- update HVAC, plumbing and electrical systems.

The F-shaped addition has:

- 18 classrooms;
- a centrally-located library;
- a science lab;
- 2 computer labs;
- resource areas;
- expanded office / sick bay;
- 250-seat gymnasium;
- kitchen/cafeteria;
- large group instruction with performance platform.

The building features rounded roof lines and canopies. Two courtyards, exposed ceilings and trusses, and use of glass, metal and clerestories brighten the interior. The entryway contains a large lobby lit with a skylight. Site improvements enhance traffic circulation, parking, and stormwater management.
