...Over the years, I have had the opportunity to work with HHS DR on a number of projects within the School District of Pittsburgh of varying sizes and budgets. Regardless of the project size or budget, HHS DR, and Mr. Andreas Dometakis and Mr. Hayden Greer in particular, have always brought the highest level of professionalism and ability to the table...

...Their quality of work, attention to program, detail, budget, and schedule have always been excellent...

...Our involvement has spanned simple renovations to major additions and been formed along what are often aggressive and demanding schedules and without exception HHS DR has met every challenge...

...Without reservation, I would recommend HHS DR for any project. In addition to the comments above, their in-house multi-discipline structure and history of timely client response makes them ideally suited to any building needs. This firm provides a solid mix of design flair and practical building knowledge; a mix too often missing in other firms.

- K. Charles Romanowski, AIA, Chief Architect, Pittsburgh Public Schools
