...The most recent project was the construction of a new 5,000 SF, \$1.3m, Art sculpture Building...I have been an owner's representative/project manager for the past 20+ years and I would consider this project to be one of the smoothest run projects to date...

...HHS DR's strengths include exceptional attention to detail during document development. This quality facilitates constructability and minimizes problems during construction...

...HHS DR's construction administration is also top notch. Bob Englebaugh and his staff have a "whatever it takes" attitude for resolving issues and are "willing to go the extra mile" for the owner...

- Tod W. Horner, Architectural Designer II, Slippery Rock University, November 2, 2009
